25.4380.60			115V 60Hz AC USA									

- Suction device with external liquid discharge
- Complete orbital covering of internal surface
- Minimised overall dimensions allow application even under the most unfavourable conditions
- Low voltage electric power
- Body made entirely of stainless steel
- Suitable for use in food industry
- Dynamic Teflon seals + EPDM O-ring
- Series equipped M4 Nozzle pair: 02-025- 03- 035- 04
