### WATER GUNS

### UMV

The UMV series washgun was primarily designed to avoid hot water waste, while assuring very comfortable operational conditions. Its thick rubber casing not only effectively protects operators' hands from hot water but it also ensures an excellent protection in case the washgun is dropped or falls to the ground as it avoids any damage to floor tiles or equipments. This carefully designed water gun, mainly used in the food industry, also includes a grease and detergent resistant quality rubber and its bright blue colour makes it immediately and clearly visible against white or clear foregrounds. Its trigger is lined too and can be held open by means of a lock-ring. The spray pattern can be continuously adjusted from a closed straight jet to a wide angle spray, to obtain the most suitable pattern for any activity and purpose.

#### Materials

<b>Body</b>	<b>T2</b> Brass casting, chrome plated
	<b>B3</b> AISI 316 Stainless Steel
<b>Lining</b>	<b>E0</b> EPDM
<b>Stem</b>	<b>B3</b> AISI 316 Stainless steel
<b>Trigger</b>	<b>B3</b> AISI 316 Stainless steel, rubber lined

<b>LT</b>	80° C
<b>LP</b>	25 bar
<b>LQ</b>	21 lpm @ 3 bar UMV 2210
	61 lpm @ 3 bar UMV 2211

<b>Hose shank</b>	13 mm – 1/2" hose fitting
<b>Weight</b>	0.9 kg

**UMV 2210 xx**

The versatility of this washgun is enhanced by the additional model UMV 2211, which can be equipped with nozzles or different lances through its 1/2" female thread. The three different lance models shown herein can be easily fit to the gun body with a 1/2" male nipple and offer the following operational choices:

- 1 Foaming machines and equipment prior to washing operations. The foam lance comes with a quick connect female coupling and a matching coupling must be fit to the gun outlet.
- 2 General purpose 1/4" fem thread outlet, 1/4" male thread inlet. Available both with a heat protection sleeve or in zinc-plated steel. To be fit to the gun, the general purpose lance requires a connection nipple 1/4" fem to 1/2" male. Please find the complete washguns and components codes here below.

#### Complete guns

<b>UMV 2210 xx</b>	Standard, adjustable jet
<b>UMV 220A xx</b>	With foam lance
<b>UMV 220B xx</b>	With 1/4" fem outlet, bare lance
